Ald. Balis, President, in the chair. The minutes of the last meeting were read and approved.

Several bills of police officers &c. were referred. A bill of two deputy sheriffs for taking charge of John C. Colt, \$50 each, was presented. From the statement made, it appears that the sheriff had the irons taken off Colt after his sentence, out of friendly feelings, and these deputies had charge of the prisoner, and remained constantly with him, for which they claim the above compensation. Ald. Lee was opposed to the bill being paid. If the sheriff thought proper to act in the manner stated, he had no right to call upon the city to pay for it; he did not doubt, how ever, but what the deputies performed their duty.

Ald. Crolius was of the same opinion. The bill was referred. Several bills from the Board of Education were offered

to be paid. Communication from P. W. Engs, Keq. with a resolution for the sum of \$10,000 to be paid for the purchase of lots and for a school in the 14th Ward. After considerable discussion a substitute was offered of a similar character and adopted. The quarterly bills of the Coroner amounting to \$852 56, was referred with power.

A bill of W. W. Chester, for furnishing carpets to the Board of Education. After debate referred. Communication of the Commissioners of the 17th Ward

in reference to the organization of a school in that ward .-

The Board then adjourned. U. STATES CIRCUIT COURT .- Before Judge

Thompson. Theophilus Nicols vs. Jacob LeRoy - The plaintiffs purchased of defendant a quantity of land at Milwaukie, the utie to which was decfective, and brings action to recover the amount paid. Mr. LeRoy held a pre-emption float, but on applying for a patent could not receive one, as the Go vernment had not concluded its purchase from the Indians. Verdict for plaintiff, \$2,609 S7.

Benj. Waldren and Sairy his wife, and John S. Wilson vs. The Corporation of the First Baptist Church, N. York. Action of ejectment to recover four lots of land on which the new Baptist church in Broome street (Mr. Cone's) has been built. Mrs. Waldron is a daughter of the late Medel Eden, as was also Mrs. Wilson, now deceased. The plaintiffs claim under the will of said Medel Eden, made in Aug 1738. The averment is that the property passed by a fraudu. lent execution of a power contained in a mortgage, and that Aaron Barr, at the time, obtained an annuity of \$400 a year in consideration of making such power. [The land and church cost the Society \$30,000.] The cause will be con-

COURT OF SESSIONS-Before the RECORDER Judge Lynch and Aldermen LEONARD and PURDY. TRIAL OF JOHN AHERN FOR EMBEZZLEMENT - The argu ment on the validity and sufficiency of the indictment which had been commenced by the counsel for defendant yesterday on the negative and objective side of the question, was continued in the affirmative and in support of the sufficiency of the indictment to-day by Mr. Graham and the Distric Astorney for the proseution, who concluded a little after 2 o'clock. The counsel for defence then rejoined and concluded the argument at a late bour. All the arguments were learned, able, and well sustained by authorities. After the conclusion of the argument the court adjourned without giving their opinion.

CIRCUIT COURT .- Before Judge KENT.

Francisco Martinez vs. Henry K. Manwaring -Assault and Battery, damages laid at \$5,000 .- The plaintiff, (a colored man,) was steward on board the New Orleans packet brig Emeline, and engaged at New Orleans to work his passage to New York. The defendant is first mate.-When the vessel arrived at quarantine last summer, and anchored about half a mile from the beach, plaintiff (who was not bound to remain) wished to go ashore in the boat with the passengers, but was not permitted to do so. He then threw off his shoes, and jumped overboard, with a view of swimming on shore, but the mate went after him in a boat and carried him back to the vessel. The complaint is, that the mate drew him out of the water partly by the hair of the head, caught hold of him by the neck while in the boat and nearly choked him, &c .- after which he was hoisted into the brig with a rope, thrown down upon the deck, and his bands tied behind him. For the defence it is contended that no more force was used than became necessary. Verdiet for the defendant. For plaintiff, Mr. Dresser ; for de-Gadant, Mr. Cutting.

ANCIENT EGYPT. MONUMENTS, HIEROGLYPHICS, AND HISTORY. BY GEORGE R. GLIDDEN,

Late U. S. Consul at Cairo. It is illustrated with nearly TWO HUNDRED EN-GRAVINGS of Hieroglyphics, &c. &c., copied from the Monuments and Pyramids of Egypt, and executed expressly for this Work.

The demand for copies of this curious, interesting, and important Book was very great, and the first edition of 7300 copies nearly exhausted during the day, notwithstandng the storm.

The Book may well be considered a curiosity in litera. ture, as it not merely contains the only representations and translatious of the once unintelligible symbols and writings of the ancient Egpytians ever published in the United States -hut presents to the American reader for the nominal price of 25 cents, a compendium of the entire discoveries of CHAM-POLLION and others down to the present time, which is not elsewhere extant in the English language, and which could not be obtained in French, Italian, and German, for less

\$2,500 !!!

because no works on these subjects can be obtained apart from expensive places. We predict for this book a sale of 50,000 copies-it must be seen and read to be appreciated. The following resolutions were then offered and accepted manipulsy. viz.

Whereas, The Report presented by the Regularly Elected Nominating Committee meets with our warm approbation-they having, in our estimation, discharged the responsible duties of their offices with fidelity and discretion— Resolved, That the Regular Nominees presented for our

suffrages are entitled to our undivided support, and will, we doubt not, he responded to by the mass of Whig Voters of the Ward; as the People will find in the respected canelidates thus presented the firm and unwavering advocates of their transports.

dates thus presented the firm and unwavering advocates of their interest; men who, by a long course of action, have recommended themselves to the favorable regard of all classes, and who, therefore, present intrinsic claims to the support of all true Whigs of the Ward.

Resolved, That the rights of the people are paramount to the whims and personal preferences of a "select few," and that the attempt made by the self-constituted "Parlor Committee" to declare who shall and who shall not be elected, must meet with that strong reprehension which awaits all who for personal considerations would sacrifice the welfare of the Party. That in a true spiritof concession we are willing to respect the wishes of all, but the unprincipled attempt of a cemanitiee to usurp the entire right delegated to the Regular Committee, is rather more than we, as Ladetempt of a committee to usurp the entire right delegated to
the Regular Committee, is rather more than we, as Iadependent Whigs, are willing to endure. That we hold the
truly Democratic doctrine of our late lamented Harrison,
that "rotation in office" should always be observed; and
that offices of trust should be nesto xed only upon those who
by long service have merited them, and should we find men
whose adherence to the principles of the party ceases, when
all prospect of farther profit ceases, we conclude that if the
party cannot exist without them, it must be in a worse condition than we believe it to be.

Realized. That in the candidate for Mayor, (Robert

Resolved, That in the candidate for Mayor, (Robert Smith) we recognize a man who may be emphatically called one of the people, and one who as chief officer of our city, will be approachable to all men, at all places and all seasons; and that we will regard his elevation to the first office in the gift of the sitizens of New-York, as an earnest of the election to the Presidency in 1844, of Henry Clay of Kentucky.

Resolved, That the unqualified thanks of the meeting be given to the Nominating Committee for the faithful dis-charge of their duties in giving to the Electors of the Ward The meeting was then elsquently addressed by Messrs. Sammons and Lorton.

On motion, Resolved, That the proceedings of this meeting be published in all the Whig papers.

Resolved, That we warmly approve of the Ticket presented for our Soffrages in this Ward, and that we recognize on it a man of sterling integrity, exalted worth, and a firm supporter of Whig principles.

Resolved, That the Whig Common Council, in their untiring efforts to promote the interests of the City, "notwithstanding the objections of the Mayor," in the redemption of their pledge to retreach our City expenditures and to reform the abuses in the administration of the City Government, in their determined resistance to factions and corrupt Pracentized domination, in their manly and successful asserment, in their actermined resistance to facture and corrupt Executive domination, in their manly and successful asser-tion of the Republican principle that the ballot box desig-nates the cheice of the people, and that its contents, and not the "opinions" of the Mayor, determine the will of the electors, have entitled themselves to our highest approba-tion for so honorably sustaining Whig principles and nobly illustrating the effects of Whig measures upon the safety and happings of the people.

to carry into full effect the york of reform they have com-menced; that the City, fully satisfied thus far, should set the seal of approval to their acts by bidding them advance to the full accomplishment of the Herculean labors with which they have grappled and in which they must tri-

implantly succeed.

Rescived, That we give to ROBERT SMITH, our candidate for Mayor, our hearty and sealous support; that in his election our city will seeme an honest, upright magistrate, one who will sustain the office in honor, by shewing in himself that respect to it, which will secure respect, from others, who will earn the title of "our efficient Chief Magothers, who will earn the title of "our efficient Chief Magistrate," by being, not by seeming such; whose mind connot stoop to the low trickery of the present demagogue incumbent, and who will not degrade his station by veto fulminations, begging the sympathy of the public because he
may want a hydrant key.

Resolved, That aithough we are met for local purposes,
and to consult upon our city affairs, yet that we deem it not
unbeditting the occasion to call to mind the name of HENRY CLAY—that we hold him up to the coming Whig Commore Consult as a procedure of a statesmen and a patriot; we

Mechanics, Manufacturers and Dealers, who feel them selves agrieved by the pernicious system of street hawking and peddling, held, agreeable to call, on Tuesday evening at Military Hall, Bowery, opposite Spring street, the meeting having been addressed by a number of gentlemen, the following resolutions were unanimously adonued: following resolutions were unanimously adopted:

Resolved, That we, the dealers, manufacturers and mechanics of the City of New-York, being fearful of our future welfare, do watch with a jealous eye all encroachments which rob us of our rights as cidzens, and tend to withdraw from us that comfort and support which is justly due to every frugal and industrious man desirous of reaping

Resolved, That it is a duty we owe to ourselves, our fam. lies and our posterity, to use all our most strengous exertions in annibilating a peralcious traffic which to us is worse than robbery, for it is robbery without the means of redress. Resolved, That we will leave no honorable means untried towards the redress of our grievances, knowing it to be a just and patriotic cause, free from malice, but fearful in

onsequences.

Resolved, That all we ask is equal responsibility. We are under heavy penalties to our landlords for rents, and to our Government for taxes; whereas the hawkers are under no such embarraments, and we must not only suffer in our business but must pay his taxes. Thus we are under the necessity of supporting Government while the hawkers go free and we are by no means certain that they are not sapping the foundations of our Republican principles Resolved. That we petition the Honorable the Common

Council of the City and County of New-York, stating our grievances and praying for immediate redress.

D. Morgan, Secretaries. To the Sedentury, Though nothing can be more contrary to the nature of man than a sedentary life, yet this class comprehends by far the greater part of the species. Almost the whole temale world, and in manufacspecies. Almost the whole female world, and in manufacturing countries, the major part of the males may be reckoned sedentary. Many of those who follow sedentary employments are constantly in a hending posture, as shoemakers, tailors, cutters, ko. Such a situation is extremely hurtful. Accordingly we find such artificers generally complaining of indigestion, headache, pains of the breast and side, costiveness, &c., &c. The aliment in sedentary people, instead of being pushed forward by an erect poture, and the actions of the muscles, is in a manner confined in the bowels; indeed none of the excretions can be duly in the bowels; indeed none of the excretions can be duly erformed where exercise is wanting; and when the matter performed waters that have been this way is retained too long in the body, it must have had effects, as it is again taken

up in the mass of humors.

Public Notice.

An article headed 'To the Public' has recently appeared in several of the City papers, signed 'Thomas Turner,' relative to a cure effected upon him by Bristol's Sarsaparilla, and denying a statement made public in the prints previously, that he was cured by Sands's Sarsaparilla; and whereas my name is brought before the public in each of these articles, I feel it my duty to make the following statement of facts as far as I am concerned. About the last of July or first of August, 1842, Mrs. Turner, the wife of 'Thomas Turner,' called on me, requesting a certificate from me that they were needy, and proper persons to receive the beneficence of Messrs. Sands, as they had advertised that "the poor would be furnished with their Sarsaparilla by a recommendation from either the Alderman of the Ward in which they live, or the minister of the Church where they were uttendants." I freely wrote such certificate, upon which I was subsequently informed that the medicine had been obtained. On the 23d of August Mrs. Turser called on me again, wishing me to write a certificate for them of the cure that had been effected by Sands's Sarsaparilla upon her husband. I wrote such certificate, embracing two facts as I supposed: the one of the disease with which he had been affected, and the other of the cure that had been made. She then said that her husband had taken the Sarsaparilia about three weeks; that his pains had all left him, and he had gone to his work; and that he was very thankful for the cure that had been effected. On the evening of the 10th of October I called at Mr. Turner's residence, and had a few minutes' conversation with him in relation to his health; he told me that it was very good. I isquired of him relative to the effects of Sands's Sarsaparills upon him; when he told me that all he wanted was more strength, and that with this exception the Sarsaparilla bad cured him. Such are the facts in the case; and I must confess, I felt utterly astonished at the appearance of the article in several papers denying the statement which had been made to me, and which I fully believed, as the said 'Thomas Turner' had testified to a similar statement before the Mayor of this City. DICTIONARY OF ARTS, MANUFACTURES AND MINES.
Containing a clear exposition of their Principles and Practice. By Andrew Ure, M. D., F. R. S., &c. &c.—Illustrated with 1240 engravings. This number completes the

Among the volumes concerning the Arts and Sciences connected immediately with political economy and the ordinary business of human society, not one probably can be designated, which, for its multifations topics, and its ex-tensive adaptation to citizens who are engaged in the most useful pursuits in life, is so intrinsically and generally valua-ble as Dr. Ure's Dictionary of Arts, Manufactures and Mines. It is not a mere definition of terms, or only a description of substances, or a catalogue of active employments, but it is an exhibition of all the most important and necessary of those numberless assections and trades which promote the welfare of society and the comfort of individuals and

There is not one of the prominent pursuits of commercial Executive domination, in their manly and successful assertion of the Republican principle that the ballot box designates the cheice of the people, and that its contents, and not the "opinions" of the Mayor, determine the will of the electors, have entitled themselves to our highest approbation for so honorably sestining Whig principles and nobly illustrating the effects of Whig measures upon the safety and happiness of the people.

Resolved, That we deem it due to our Whig Common Gouacil, by every consideration that ought to influence men—by gratitade, by patriotism, by honor and by interest —to place them again in the position that will enable them to carry into full effect the work of reform they have composed; that the Giv, fully satisfied thus far, should serve men should enforce upon every curson house officers. Government should enforce upon every curiom house offi-cer to keep Dr. Ure's Dictionary near blun, that he might not mistake in his classification of the articles submitted to his search. Hence it appears that the "Dictionary of Arts, Manufactures and Mines," by Andrew Ure, especially as it

is so cheap, is exactly adapted to the present exigencles of the American community.

"This is unquestionably one of the most important practical scientific works which the present century has pro-duced. It is not only invaluable non a book of reference, but it presents the various subjects of which it treats, with so much perspiculty as to bring them quite within the reach of an ordinary intelligence. Every scientific man may be ex-pected to possess himself of the work of course; and we can commend it also with equal confidence to all not proessedly men of science, who wish to be entightened in repect to a thousand things of which the great mass are in-seed profoundly ignorant, but which yet anter deeply into the economy of civil society."
